Pornthep Achatsachat (Lookchin)

Senior UX/UI Designer

Bangkok, Thailand, 0838339168, p.achatsachat@gmail.com • linkedin.com/in/lookchin • medium.com/@lookchin

PROFESSIONAL SUMMARY

Senior UX/UI Designer with 8 years designing usability for technically complex products - DeFi protocols, developer tools, block explorers, and data platforms. Proven at taking products from zero to shipped: owning full-loop UX from research through hi-fi design and acceptance testing, while building scalable atomic design systems. Experienced hiring manager (100+ interviews), mentor, course instructor, and public speaker in the UX community.

CORE SKILLS

Design & Prototyping: Figma, Claude, IA, User Flows, Journey Maps, Hi-Fidelity Design, Interactive Prototypes

Research & Testing: User Interviews, Usability Testing, Guerrilla Testing, Contextual Inquiry, Heuristic Evaluation

Systems & Process: Atomic Design Systems, Design Tokens, Component Libraries, Agile / SCRUM, Product Discovery

Domain Expertise: DeFi, Blockchain, Smart Contracts, Developer Tools, Block Explorers, Data Visualization, Data Annotation

Leadership: Hiring & Onboarding, Team Lead, Design Mentorship, Career Goal Mapping, Design Reviews

PROFESSIONAL EXPERIENCE

Senior UX/UI Designer - IBM Digital Talent for Business **2025 - Present**

- **Led design** for OBS Cambodia and Krungthai Government projects, defining the **banking experience for over 10,000 organizations.** Adapted the Krungthai Business framework to handle complex cross-border needs and **secured executive approval** for the product roadmap.
- Redesigning Krungthai's **Incident Management process** by identifying deep-seated manual bottlenecks through end-to-end research. Delivered a **150-page strategic roadmap to management**, proposing a shift from **manual tasks to AI-powered** automation to boost speed and feasibility.

Senior UX/UI Designer - Initia Labs (Formerly Alles Labs) **2022 - 2025**

- Designed **Celatone** - a smart-contract developer tool and block explorer - from scratch; achieved **94% task completion and 4.48/5 satisfaction** in usability testing. Adopted as the default explorer across **15 networks** and acquired by Initia Labs.
- Launched **InitiaScan** for Initia's MOVE-based blockchain in 2 months; both usability test participants returned a perfect **5/5 System Usability Scale** at launch.
- Built and owned an atomic-design component library and design tokens, accelerating designer onboarding and developer handoff across the product suite.
- Established company-wide **product process blending SCRUM and Product Discovery**.
- Mentored juniors via career-goal mapping aligned to company objectives.

Senior Product Designer - RentSpree **2021**

- Designed the **Rent Payment** feature for landlords and tenants across desktop and mobile; owned hi-fi prototyping, acceptance testing, and sprint integration. Feature shipped successfully post-engagement.
- Advanced company UX maturity by introducing design review processes and team-structure recommendations.

UX/UI Designer - Backyard **2018 - 2021**

- **Owned end-to-end UX/UI for NLP-driven analytics (Ladder) and data-annotation platforms (Markr)**; collaborated with data scientists to bridge technical feasibility with user-centric design for complex Thai-language tokenization.

TEACHING, SPEAKING & WRITING

- Course Instructor, Upskill UX - author of *"Comprehensive Usability Toolkit"*; student ratings of **9.8 / 9.6 / 9.4 out of 10** across content, teaching style, and materials.
- Speaker at UX Day: Go with the Flow (S2) and multiple panels on UX interviewing, career progression, and usability.
- Author on Medium (@lookchin); UX Thailand community article reached **1,600+ shares**.

EDUCATION & CERTIFICATIONS

Education: Chulalongkorn University, Bachelor of Computer Engineering. (2018)

Certifications: Google UX Design Specialization (Coursera, 7 courses); Interaction Design Foundation (32 courses + 6 Master Classes); Uxcel (8 courses).

Languages: Thai (Native), English (Professional Working Proficiency)
